

SENIOR LEADERSHIP DEVELOPMENT PROGRAMME

Hyper-looping the known & unknown next normal

The shift from the fourth industrial revolution to the fifth industrial revolution has been accelerated by the COVID-19 global pandemic, This has amplified the need for leaders to upskill to be able to lead teams differently.

This programme will develop the strategic know-how and deep business acumen required to be a high-performance senior leader. Strategic insights will be grounded in deep self-awareness and self-regulation.

Course overview

Senior leaders lead in fast-paced, complex, hyperloop environments and they need to be able to problem solve and make quick decisions, often with conflicting pieces of information. Navigating changing lines for focused decision making and getting to the destination or outcome is key for the senior leader.

You will learn to scan and lead through the disruption of the external environment and respond to these trends and challenges through conscious thinking and influence.

Who is this course for?

The Senior Leadership Development Programme Is aimed at senior leaders who lead a function or business unit and middle managers transitioning from leading teams to leading a business unit.

Why is this course right for you?

The course is broken down into learning pods: Leading self, leading team, leading organisation and leading world. Each learning pod is supported by a coaching pod where your learning coach will guide you through application of your learning to your workplace.

These learning pods are broken up into 2-hour virtual classroom sessions. All virtual sessions are facilitator led (faculty) and the entire course is embedded and supported by a learning coach.

The following learning pod conversations will be covered during the programme:

- Futureproofing self for impact
- 6 levels of intelligence
- Conscious and ethical leadership
- Purposeful leadership
- Diversity, inclusion and belonging

- Leading teams through crisis and disruption
- Profit with purpose
- Innovation from the heart and the head
- Project management
- Neuromarketing
- Re-purposing the value chain
- Strategy for the "next normal"
- Developing a digital mindset for the 4IR and 5IR
- Economics for strategic decision making
- Customer experience design

Duration

112 hours of virtual classroom learning over 6 months.

The 112 hours are divided up over 2-hour virtual classroom sessions on Tuesdays, Thursdays and Saturdays.

How will you benefit?

By applying insights in real-time you will quickly make informed decisions in the boardroom for optimum influence and impact. This exciting programme will have you work on unique and challenging projects which aim to impact the self, home and community. The benefit is not just in the real difference you will make in the workplace but to your home and community too.
